THEODORE HESLING

Engineering student seeking a four month internship in Cybersecurity and Computer Science

theodore200531@outlook.com 0675493372 Gardanne 13120, France

PROFILE

Cybersecurity-focused Engineering candidate at Mines Saint-Étienne with hands-on experience in securing automotive architectures at Valeo and exploring the resilience of financial trading floors at BNP Paribas, who combine technical expertise in Python, OpenSSL, and automation with a multilingual capacity in French, English, Spanish, and Chinese. Proactive and data-driven, I am dedicated to protecting global infrastructures and streamlining international risk detection through efficient, AI-backed analysis in high-stakes environments.

EDUCATION

Engineer Degree (M.Sc) - Mines de Saint Etienne 09/2025 – 07/2028
Engineering Degree candidate at Mines Saint-Étienne, pursuing an advanced curriculum in Computer Science and IoT security, with an emphasis on developing resilient digital architectures and secure embedded software. Gardanne

CPGE PC - Lycée Jeanne d'Albret 09/2023 – 07/2025
Rigorous two-year program with a focus on Advanced Physics, Chemistry, and Mathematics. Prepared for national engineering school entrance exams. SAINT GERMAIN EN LAYE

EXPERIENCE

Treasurer - Junior Mines Provence 01/2026 – 07/2026
Treasurer for Junior Mines Provence, managing the firm's financial operations and ensuring the integrity of transactions through rigorous budgeting, tax compliance, and national audits by the CNJE. Gardanne

Cybersecurity platform Architect - Valeo 01/2026 – 02/2026
Cybersecurity Intern at Valeo with a strong focus on risk management and the implementation of secure communication protocols. Experienced in navigating high-compliance environments and identifying potential vectors in connected hardware. Seeking to leverage this technical rigor to protect critical infrastructure within a specialized cyber firm. Créteil

Observation Internship - BNP 04/2021 – 04/2021
Observation internship at BNP Paribas CIB (Corporate Investment Banking), gaining exposure to the high-security infrastructure of a global trading floor and the critical cybersecurity protocols required to ensure real-time data integrity and operational resilience. Shanghai
