THÉODORE HESLING

theodore200531@outlook.com +33 6 75 49 33 72 Gardanne / Aix-en-Provence, France

Nationality: French (EU Citizen – Eligible for Swiss Work Permit B/L without quota delay)

To: The Information Security & Infrastructure Recruitment Team **Date:** [Date of Application]
Company: [Target Company, e.g., Proton / ELCA / Kudelski Security / Swisscom]
Location: Geneva / Lausanne / Vaud, Switzerland

Subject: Application for Cybersecurity & Cloud Infrastructure Intern (4 to 5 Months – from April 2027)

Dear Hiring Team,

I am writing to express my eager interest in joining **[Company Name]**'s cybersecurity and digital trust engineering division. Currently enrolled in the second year of the Master of Science in Engineering at **Mines Saint-Étienne (ISMIN)**, I have developed a strong specialization in computer systems security, applied cryptography, and network resilience.

My professional experience at **Valeo** immersed me in cybersecurity risk analysis, threat modeling, and protocol auditing, where I identified vulnerability vectors and evaluated mitigation strategies against international regulations. This experience was further informed by early observation of the high-security infrastructure of **BNP Paribas CIB**'s global trading floor in Shanghai, exposing me to high-availability network topologies and zero-trust paradigms. In my engineering curriculum, I engineered an end-to-end secure IoT telemetry pipeline using **OpenSSL** for mutual TLS authentication and cryptographic message integrity.

Switzerland is recognized worldwide as a premier hub for data privacy, cryptographic excellence, and secure infrastructure. **[Company Name]**'s unwavering commitment to privacy, sovereignty, and state-of-the-art defense makes your engineering team the benchmark for my professional aspirations.

Beyond technical expertise, I offer an international background and versatile communication skills: native French, bilingual English (C2 – Cambridge/IGCSE), certified Spanish (C1), certified Chinese (C1 – HSK 3), and actively progressing in German (*Nicos Weg*). Serving as Treasurer of Junior Mines Provence honed my discipline in regulatory audits, budget control, and organizational risk management. As an EU citizen, I benefit from simplified, quota-exempt Swiss B/L work authorization.

Available starting **April 2027 for a duration of 4 to 5 months** (minimum 16 weeks to validate my French CTI degree requirements), I am eager to contribute my energy, rigor, and technical dedication to **[Company Name]**'s mission. Thank you for considering my application.

Sincerely,

Théodore Hesling
