LinkedIn Profile

PROFILE

Cybersecurity-focused Engineering candidate at Mines Saint-Étienne (ISMIN) with hands-on experience in securing automotive architectures at Valeo and financial infrastructure exposure at BNP Paribas CIB. Combining deep expertise in OpenSSL, network security protocols, system hardening, and automation with multilingual fluency. Motivated to safeguard critical Swiss enterprise, financial, and cloud environments. EU citizen eligible for simplified Swiss L/B work permits.

EDUCATION

Engineer Degree (M.Sc) - Mines de Saint Etienne 09/2025 – 07/2028
Engineering Degree candidate at Mines Saint-Étienne (ISMIN cycle). Specialization in Computer Science, Distributed Systems, and Cybersecurity. Core coursework: Network Security, Applied Cryptography, Linux Kernel & OS Security, Cloud Infrastructure, and Threat Modeling. Gardanne

CPGE PC - Lycée Jeanne d'Albret 09/2023 – 07/2025
Intensive two-year undergraduate program in Advanced Physics, Chemistry, and Mathematics preparing for competitive nationwide entrance exams to French Engineering Grandes Écoles. SAINT GERMAIN EN LAYE

EXPERIENCE

Treasurer - Junior Mines Provence 01/2026 – 07/2026
Overseeing treasury and fiscal governance for the student engineering consulting firm, enforcing budgetary compliance, internal risk controls, and passing national audits conducted by the CNJE. Gardanne

Cybersecurity Platform Architect Intern - Valeo 01/2026 – 02/2026
Conducted cybersecurity threat analysis, vulnerability assessments, and risk remediation on vehicle software platforms. Audited cryptographic key management and secure diagnostic communication channels against UNECE R155/156 standards. Créteil

Secure IoT Telemetry Infrastructure - Mines Saint-Étienne 10/2025 – 03/2026
Implemented an end-to-end authenticated IoT data pipeline utilizing OpenSSL for TLS/DTLS mutual authentication, symmetric stream encryption, and cryptographic integrity verification on connected sensor nodes. Gardanne

Observation Internship - BNP Paribas CIB 04/2021 – 04/2021
Immersed in the digital infrastructure of a high-frequency trading floor, studying low-latency network topologies, disaster recovery configurations, and cybersecurity defense-in-depth measures. Shanghai

SKILLS

Cybersecurity & Cryptography
Skillful (OpenSSL, TLS/SSL, PKI, AES/RSA/ECC, Threat Analysis)

System Security & Networks
Experienced (TCP/IP, Wireshark, Linux Hardening, Firewalls, SSH)

Python & Automation
Experienced (Python Scripting, Bash, Google Apps Script, APIs)

Low-Level Systems
Intermediate (C, Memory Safety, Reverse Engineering Basics)

Cloud & DevOps Basics
Intermediate (Docker, Linux Administration, Git, CI/CD)

Compliance & Risk
Intermediate (ISO 27001, UNECE R155, Risk Assessment)

LANGUAGES

French
Native speaker

English
C2 – Bilingual (IGCSE & A-Levels)

Spanish
C1 – Fluent (DELE Diploma)

Chinese (Mandarin)
C1 – Fluent (HSK 3)

German
Elementary (A1/A2, self-study with Nicos Weg)

Swiss Work Authorization
French / EU Citizen (Fast-track L/B Permit)
